PROFILE

MPA candidate in Public Policy at Clark Atlanta University with a passion for education research and institutional data systems. Experienced in collecting, organizing, and analyzing data across education, nonprofit, and entrepreneurship settings. Seeking to apply research, data management, and analytical skills to drive data-informed decision-making.

EXPERIENCE

Data & IT Intern

Russell Innovation Center for Entrepreneurs, Atlanta, Georgia

October 2026 – Present

- Build workflow automations in Zapier to streamline data handoffs and reduce manual processes across teams.
- Manage and maintain records in Neon to support data organization and reporting.
- Coordinate projects and track deliverables in Asana.
- Provide technical and data support to staff and entrepreneurs, helping teams adopt tools that improve efficiency.

Best Buy Fellow

Best Buy Fellows Program

October 2026 – Present

- Selected for a competitive fellowship focused on applying artificial intelligence and emerging technology to real-world challenges.
- Design and prototype AI-driven solutions using machine learning techniques.
- Apply 3D printing and rapid prototyping to turn concepts into functional, tangible products.

Institutional Research Mentee

Clark Atlanta University, Office of Institutional Research & Planning

May 2026 – August 2026

- Participated in a structured mentorship focused on institutional research, higher education data, and strategic decision-making.
- Assisted with data analysis and reporting projects that support university planning and student success initiatives.
- Gained exposure to enrollment management, retention metrics, and institutional effectiveness practices.

Program Intern

YouthCentric

August 2024 – March 2025

- Collected and organized student data related to participation, engagement, and program outcomes to support program evaluation.
- Assisted in analyzing student feedback and behavioral trends to inform mental health and college readiness programming.
- Contributed to data-informed strategies that improved student engagement and program effectiveness.
